MIRACLE

Polished | Gray | Cream | 80x80cm **06** Faces

Polished Porcelain:

High-density ceramic with very low water absorption, excellent mechanical and wear resistance, smooth uniform surface, and superior color and chemical stability perfect for flooring, wall cladding, and precision designs.

NORIS

Polished | Gray | 80x80cm

06 Faces

The image shows a light gray, polished stone surface with a complex, organic pattern of veins and swirls. The texture is highly detailed, with varying shades of light gray and off-white, giving it a natural, marble-like appearance. The surface has a subtle sheen, reflecting light in a way that emphasizes its depth and texture.

NORIS

Polished | Light gray

The image shows a dark gray, polished stone surface with a complex, organic pattern of veins and swirls. The texture is highly detailed, with varying shades of dark gray and charcoal, giving it a natural, marble-like appearance. The surface has a subtle sheen, reflecting light in a way that emphasizes its depth and texture.

RONDA

Matt | Sugar | Gray | 80x80cm

05 Faces

Sugar Matte porcelain features a matte surface with a micro crystalline texture that evenly diffuses light, creating a natural and luxurious appearance. With very low water absorption and high mechanical and abrasion resistance, it is suitable for both residential and commercial spaces. Its anti-slip surface and lack of direct light reflection make it an ideal choice for modern and minimalist designs.
