BARABBAS

polished | white | 60x120cm

White polished porcelain:

is widely used for **interior flooring** in residential, commercial, and hospitality spaces due to its **high gloss, light reflection and clean modern appearance**. It enhances brightness, creates a sense of spaciousness, and offers **high density, low water absorption, and good mechanical resistance**, making it suitable for high-traffic indoor areas.

Matt effect porcelain (3G)

with a neutral base and a texture inspired by natural materials features delicate leaf motifs and graphic lines, creating an artistic and contemporary visual appeal.

The combination of a matte surface with subtle decorative details and soft metallic tones enhances visual depth and conveys a sense of elegance. This product is specially designed for decorative walls, feature surfaces, and design-oriented interior projects, establishing a harmonious balance between nature and modern design.

Sugar matt porcelain:

Sugar matt porcelain is a specialized porcelain featuring a matt surface enriched with fine crystalline particles that create a velvety texture with a controlled, subtle sparkle. This surface structure maintains a non-glossy appearance while providing greater visual depth compared to standard matte finishes. Due to its uniform texture and high-quality digital printing, sugar matt porcelain is an ideal choice for decorative spaces and feature walls. The combination of luxurious aesthetics, distinctive tactile feel, and high durability makes this product a standout option in modern interior design.
